Call for papers
Multimedia Computing and Communications (MCC), ICNC 2015
 Anaheim, California, USA February 16-19, 2015
http://www.conf-icnc.org/2015

Symposium Co-chairs
Hsiao-Chun Wu, Louisiana State University, USA
Email: wu@ece.lsu.edu

Ping Wang, Nanyang Technological University, Singapore
Email: wangping@ntu.edu.sg

Nabil J. Sarhan, Wayne State University, USA
Email: nabil@ece.eng.wayne.edu

Scope
The Multimedia Computing and Communications (MCC) Symposium will focus on topics related to all aspects of Multimedia Processing and Transmission. The MCC Symposium will include original contributions in, but not limited to, the following topical areas:

- Audio and video coding standards
- High efficiency video coding
- Multiview video capturing, rendering, and coding
- Media conversion and transcoding, media summaries and storyboards
- Image/video processing, filtering and enhancement
- 3DTV, 3D multimedia streaming, 3D video processing
- Quality of experience (QoE) models, QoE models for 3D Systems
- Multimedia content analysis, representation, and understanding
- Multimedia and multimodal user interfaces and interaction models
- Augmented reality algorithms and applications
- Multimedia networking, multimedia traffic management
- Web and TV, integration of streaming services in HTML-5
- Dynamic adaptive streaming over HTTP
- Efficient and massively scalable multimedia service distribution, multimedia delivery, multimedia broadcasting
- Improved user experience for streaming services
- Web- and browser-based real-time communication
- Mobile multimedia, wireless multimedia communications
- Cross-layer design for Internet/wireless multimedia communications
- Event detection, feature extraction and representation, object/activity recognition
- Indexing, searching, retrieving, query, and archiving databases, integration of synthetic and natural audio/video

Submission Guidelines
Please follow the author instructions at http://www.conf-icnc.org/2015/author.htm
Direct paper submission weblink of this symposium can be found at http://www.conf-cnc.org/2015/cfp.htm

Short biographies of co-chairs
Hsiao-Chun Wu
Hsiao-Chun Wu received a B. S. E. E. degree from National Cheng Kung University, Taiwan, in 1990, and the M. S. and Ph. D. degrees in electrical and computer engineering from University of Florida, Gainesville,
in 1993 and 1999 respectively. From March 1999 to January 2001, he had worked for Motorola Personal Communications Sector Research Labs as a Senior Electrical Engineer. Since January 2001, he has joined the faculty in Department of Electrical and Computer Engineering, Louisiana State University, Baton Rouge, Louisiana, USA. From July to August 2007, Dr. Wu had been a visiting assistant professor at Television and Networks Transmission Group, Communications Research Centre, Ottawa, Canada. From August to December 2008, he was a visiting associate professor at Department of Electrical Engineering, Stanford University, California, USA. Dr. Wu has published more than 180 peer-refereed technical journal and conference articles in electrical and computer engineering. His research interests include the areas of wireless communications and signal processing. Dr. Wu is an IEEE Senior Member and an IEEE Distinguished Lecturer. He has served as an Associate Editor for many IEEE journals and magazines.

Ping Wang
Ping Wang received the Ph.D. degree in 2008 from the University of Waterloo, Canada, in Electrical Engineering. She is currently an assistant professor at School of Computer Engineering, Nanyang Technological University, Singapore. Her current research interests include QoS provisioning and resource allocation in multimedia wireless communications. She received the Best Paper Award from IEEE ICC 2007 (International Conference on Communications) and WCNC 2012 (Wireless Communications and Networking Conference). She is a co-chair of IEEE ICC 2010, IEEE IWCMC 2012-2014, and an editor of IEEE Transactions on Wireless Communications, EURASIP Journal on Wireless Communications and Networking, and International Journal of Ultra Wideband Communications and Systems.

Nabil J. Sarhan
Nabil J. Sarhan received the Ph.D. and M.S. degrees in Computer Science and Engineering at the Pennsylvania State University and the B.S. degree in Electrical Engineering at Jordan University of Science and Technology. Dr. Sarhan joined Wayne State University in 2003, where he is currently an Associate Professor of Electrical and Computer Engineering and the Director of Wayne State Multimedia Computing and Networking Research Laboratory. His main research areas are video streaming and communication, computer and sensor networks, automated video surveillance, multimedia systems design, energy-efficient systems, and cross-layer optimization. Dr. Sarhan is the Chair of the Interest Group on Media Streaming of the IEEE Multimedia Communication Technical Committee. He is an Associate Editor of the IEEE Transactions on Circuits and Systems for Video Technology. Dr. Sarhan has been involved in the organization of numerous international conferences in various capacities, including chair, co-chair, publicity chair, track chair, and technical program committee number. He served as the Co-Director of the IEEE Multimedia Communication Technical Committee Review Board. Dr. Sarhan is the recipient of the 2008 Outstanding Professional of the Year Award from the IEEE Southeastern Michigan Section and the 2009 President's Award for Excellence in Teaching from Wayne State University.
