Call for Papers
Social Computing and Semantic Data Mining Symposium (SCSD)
ICNC 2019
Honolulu, Hawaii, USA, Feb 18-21, 2019
http://www.conf-icnc.org/2019/

Symposium Co-chairs
Payam Barnaghi, University of Surrey, UK, payam.barnaghi@gmail.com
Xiang Sun, New Jersey Institute of Technology, USA, xs47@njit.edu

Scope
Social Computing and Semantic Data Mining Symposium will focus on the topics related to all aspects of the intersection of social behavior, computational systems, and semantic data mining. Of special interests in social computing are papers reporting on novel and practical solutions to social networks, mobile social sensing, service quality, trust, online auctions, modeling and analysis, reputation systems, computational social choice, tagging, game and so on. Of special interest in semantic data mining are papers reporting in large-scale and real-world semantic applications, methodology of semantic representation and large-scale data mining, machine learning, information retrieval, artificial intelligence in social contexts and so on. To ensure complete coverage of the advances in this broad area, the Social Computing and Semantic Data Mining Symposium solicits original contributions in, but not limited to, the following topical areas:

- Social Networks
- Social Media Analytics and Intelligent Social Media
- Social Service Science, Quality, Architecture
- Trust and Privacy in Social Contexts
- Social Networks/Media/Service System Design and Architectures
- Semantic Web Techniques
- Mobile Social Sensing
- Social Intelligence
- Social Behavior Modeling and Analysis
- Social Behavior Synthesis
- Opinion Representation, and Influence Process Modeling
- Reality Mining
- Real-world semantic applications
- Big Data Analytics and Storage
- Statistical Data Mining
- Data Mining, Machine Learning, Information Retrieval, Artificial Intelligence in Social Contexts
- Social signal Processing System Design and Architectures

Submission Guidelines
Please follow the author instructions at http://www.conf-icnc.org/2019/author.htm
Direct paper submission for this symposium can be found at http://www.conf-icnc.org/2019/cfp.htm

Short biography of Co-chairs
Xiang Sun is currently a Ph.D. candidate in the ECE department at the New Jersey Institute of Technology. He received a B.E. degree in electronic information and an M.E. degree in computer applications technology both from Hebei University of Engineering in 2008 and 2011, respectively. He
has (co-)authored 24 technical publications. He holds 1 U.S. patent and has filed 6 U.S./PCT non-provisional patent applications. His research interests include mobile edge computing and networking, semantic Internet of Things, green communications and networking, and drone assisted mobile access networks. He has received several honors and awards, including NJIT Ross Fellowship 2014-2015, 2016 IEEE International Conference on Communications (ICC) Best Paper Award, and 2017 IEEE Communications Letters Exemplary Reviewers Award.
